PayCreate

RESTAURANT SOLUTIONS

An introduction for DeChecco's Pizzeria

Payments that fit your pizzeria.

Payment processing, POS options, and direct online ordering for your restaurant.

START WITH YOUR CURRENT SETUP

01 **Understand processing costs.**

Review statements and fees across locations, then compare options based on your actual business needs.

02 **Follow the way orders arrive.**

Look at counter, pickup, delivery, and online payments alongside your current POS and ordering tools.

03 **Plan across your locations.**

Discuss equipment, reporting, setup, and support needs before recommending changes.

Build on what's working.

DeChecco's already offers online ordering and an app. We'd start by understanding what's working today and where PayCreate could help.

Talk with PayCreate.

Leave your contact details and our team will follow up about your restaurant's payment needs.
